

Petition to MP Arnold Viersen and MP Pierre Poilievre

I stand with Arnold Viersen!

Liberal MPs and the media have attacked the pro-life, Conservative MP from Alberta, Arnold Viersen, over a May 31st podcast interview in which he had expressed his belief in the sanctity of human life and the true definition of marriage between one man and one woman.

Asked by the host how far he'd like to see a ban on abortion go, Viersen responded admirably that pro-lifers like himself "want it to be illegal. We want the humanity of the pre-born to be recognized."

When the host pressed him on how he'd vote if a bill on the definition of marriage ever returned to the House of Commons, Viersen responded the way any faithful Christian should, stating that in that hypothetical scenario: "I vote gay marriage down."

However, CPC Leader Pierre Poilievre threw Viersen under the bus. He issued a pandering statement to the media in which he distanced himself and the party from Viersen, reassuring liberal journalists that Poilievre would never allow any abortion legislation to pass, and leaving the false impression that the CPC membership fully supports homosexual so-called "marriage".

After that, the Toronto Star published a story claiming that several Conservative MPs were "furious" with Arnold for having expressed his pro-life, pro-family beliefs publicly.

I, on the other hand, as a Christian who honours biblical teaching on abortion and marriage, am extremely proud of MP Arnold Viersen!

I proudly affix my name to this petition, to show my deep gratitude to MP Viersen for standing up for these pro-life and pro-family values, which I and millions of other Canadians also share!

I stand with Arnold Viersen!
